Ronald Redline et al.

Patent No.: 6,444,109

Issue Date: September 3, 2002

Docket No. 2156-056A

Title: Method for Enhancing the Solderability of a Surface

Mail Stop Petitions  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**SUPPLEMENTAL INFORMATION IN SUPPORT OF PETITION TO CORRECT  
INVENTORSHIP OF A PATENT**

A petition was filed on October 11, 2012 regarding the above referenced patent requesting waiver under 37 CFR 1.183 of 37 1.324 as it requires that a named inventor assent to the correction of the inventorship in an issued patent and which petition was dismissed.

However, effective September 16, 2012, 37 CFR 1.324(b) now states that:

Any request to correct inventorship of a patent pursuant to paragraph (a) of this section must be accompanied by:

- (1) A statement from each person who is being added as an inventor and each person who is currently named as an inventor either agreeing to the change of inventorship or stating that he or she has no disagreement in regard to the requested change;
- (2) A statement from all assignees of the parties submitting a statement under paragraph (b)(1) of this section agreeing to the change of inventorship in

Patent No.: 6,444,109  
Date of Patent: September 3, 2002

the patent, which statement must comply with the requirements of § 3.73(c) of this chapter; and

- (3) The fee set forth in §1.20(b).

In addition, effective September 16, 2012, 37 CFR 1.43 states that if an inventor is deceased or under legal incapacity, the legal representative of the inventor may make an application for patent on behalf of the inventor.

Based thereon, Petitioner is submitting herein additional information in support of the Petition to Correct Inventorship previously filed on October 11, 2012 in order to comply with the new rules. In addition, Petitioner is also identifying the legal representative of the deceased inventor and has obtained his signature on the statement in accordance with 37 CFR 1.324(b)(1) which statement also identifies the name of the legal inventor.

To that end, Petitioner is submitting concurrently herewith a Statement of John L. Cordani, Secretary of MacDermid Inc. on behalf of deceased inventor Ronald Redline. In addition, Petition is also submitting a Substitute Statement in Lieu of an Oath or Declaration For Utility or Design Patent Application (35 U.S.C. 115(d) and 37 CFR 1.64) (PTO/AIA/A02). An Application Data Sheet is also being submitted concurrently herewith.

MacDermid, Inc. is the legal representative of Ronald Redline by way of an Employee's Agreement signed by Ronald Redline and in which Mr. Redline agreed that in the event that the Corporation (MacDermid, Inc. and its subsidiaries and affiliates) is unable to secure his signature whether because of physical or mental incapacity, or for any other reason whatsoever (emphasis added), to designate and appoint the Corporation and its duly authorized officers and agents as his agent and attorney-in-fact, to act for and in his behalf and stead to do lawfully permitted acts to further the

Patent No.: 6,444,109  
Date of Patent: September 3, 2002

prosecution and issuance of letters patent, copyright or other analogous protection thereon with the same legal force and effect as if executed by him. Based thereon, MacDermid, Inc. is the legal representative of Ronald Redline with regards to this patent and may execute a Substitute Statement on his behalf.

As to Item (1) above, statements of David Sawoska, Peter Kukanskis, Eric Yakobson and Donald Ferrier were provided with the initial submission on October 11, 2012. As indicated above, the Substitute Statement of John L. Cordani on behalf of Ronald Redline is also submitted concurrently herewith.

As to Item (2) above, a statement under 37 CFR 3.73(c) is attached hereto. In addition, a statement from MacDermid, Inc., the assignee of all right, title and interest in the above referenced patent, submitting a statement under paragraph (b)(1) of this section and agreeing to the change of inventorship in the patent was provided with the initial submission on October 11, 2012.

As to Item (3), the \$130 processing fee for correcting inventorship in a patent was submitted with initial submission on October 11, 2012 and it is not believed that this fee needs to be submitted again. However, in the event that a fee is due, please charge deposit account 50-0447.

The corrections described herein would not involve such changes in the patent that would constitute new matter or require reexamination.

Also provided with the initial submission on October 11, 2012 was a Certificate of Correction (Form PTO/SB/44), which was prepared to state the nature of the errors and the requested corrections. It is respectfully requested that the sealed Certificate of Correction be forwarded to the undersigned at the address listed below.

Patent No.: 6,444,109  
Date of Patent: September 3, 2002

Based thereon, Petitioner respectfully submits that the present submission, when taken in combination with the prior submission filed on October 11, 2012 fulfills all of the requirements for correcting inventorship of the above-identified issued patent and it is hereby requested that the inventorship of the above-identified issued patent be corrected to add the names of Donald Ferrier and Eric Yakobson to the patent.

In the event that any issues remain which prevent the issuance of the Certificate of Correction, it is respectfully requested that the undersigned attorney be contacted at (203)575-2648 prior to the issuance of any correspondence in connection therewith so that any remaining issues can be promptly resolved.

Respectfully submitted,

By:
